Brawlhalla is trash. Amazing skin, way worth your money if your looking for a skin that completely changes every visual aspect of maypul and your a fan of brawlhalla or just badass dragons. 10V10 buy for me, and the most worth of the DLC on steam.. This is a great skin! I love how it looks so I'm glad I purchased it :)

Tip: If you are looking into getting all the DLC for this game you might want to wait for the "Definitive edition" of Rivals to see what's that about.. Looks way better in Rivals than in Brawlhalla. Then again, Brawlhalla is garbage.. Excelent skin, with new animations! fairly pricy in my opinion, but high quality!. This skin is very fun ot use!!!. This skin is probably worth the money. It's like maypul but a dragon so that scalies have something to beat their meat to. All of the animations are new and look pretty cool (or should I say hot). My only complaint is that this skin could have been a clone character that replaced clairen as the dlc fire character. Or maybe replace Kragg because f\*ck Kragg.. I really like this skin. It works so well on Maypul and makes me want to play as her more. I'm a sucker for dragons.. Is there really much to say about this? It's a reskin, but actually a really cool looking one, plus it's of course, based on another indie brawler game called Brawlhalla! But I did find a bug to this reskin though...whenever you use Ragnir's (Or Maypul's) N-Special in the air, Ragnir will quickly turn into and Orange Maypul, then turn back into Ragnir. I tried finding other moves that may be bugged a little, but this was the only one I found.

But overall, this is a pretty neat reskin based on a character in Brawlhalla, two fighting games that crossover with eachother no matter how small or big they are is amazing. Totally worth the \$3.99

U game me RANNO, not Ragnir Maypul. WAT THE HELL.. I don't care for Brawlhalla and this skin got me to actually learn Maypul, so needless to say if you like either I highly recommend this skin.
