The screenshot shows the Toad for Oracle interface. On the left, a pivot table is displayed with the following data:

| REGION_ID | COUNTRY  | Customers Total |
|-----------|----------|-----------------|
| 5         | Bahamas  | 1               |
|           | Barbados | 3               |
|           | Belgium  | 1               |
|           | Bolivia  | 2               |
|           | Brazil   | 2               |
|           | Chile    | 1               |
|           | Ecuador  | 1               |
|           | US       | 38              |
| 5 Count   |          | 49              |
| 4         | US       | 223             |
| 3         | US       | 283             |

A red box highlights the pivot table, and a red arrow labeled "Export to Excel Grid" points to the right. On the right, an Excel spreadsheet shows the resulting grid:

|    | A         | B        | C         | D |
